

Preregistration Pharmacy Recruitment Process Score Guidance

Situational Judgement Test

Your score for the Situational Judgement Test is reported on a standardised scale. The table below shows how these scores compare with other Preregistration Pharmacist applicants who took the test.

Situational Judgement Test

Standardised score range	Approx percentage scoring in this range	Score Meaning
0-27.0	2%	Very poor level of performance
27.1-55.0	28%	Below average performance
55.1-69.0	50%	Good level of performance
69.1-90.0	20%	Very good level of performance

Multiple Mini Interview

Your score for the Multiple Mini Interview is reported on the raw scale. The range of scores available on the Multiple Mini Interview is 24-120.

Scores for the Multiple Mini Interview are also provided for each of the six attributes assessed within the Interview. The range of scores available for each attribute is 4-20.

Numeracy Test

Your score for the Numeracy Test is reported on the raw scale. The range of scores available on the Numeracy Test is 0-10. The Numeracy Test score is not included in the Overall Score. Instead a minimum score of 30% is required to be eligible for an offer of a pre-registration position.

Overall Score

The total score for all candidates who attend a Preregistration Pharmacist Recruitment Selection Centre, is calculated by combining results from the Situational Judgement Test and Multiple Mini Interview. To give a candidate's total score, the Situational Judgement Test score is weighted at 40% and Multiple Mini Interview score weighted at 60%.

To achieve an accurately weighted total score, it is important that all results use the same scale. Therefore, the Situational Judgement Test Score has to be scaled to allow them to be combined with Multiple Mini Interview scores.

An applicant's total score is then calculated by combining the weighted Situational Judgement Test and Multiple Mini Interview in the agreed manner. A cut-off will be set to determine the minimum mark a candidate needs to achieve to be deemed 'successful in selection'. Candidates who achieve this score or above will be ranked and places allocated accordingly.
