Further information on the Trust:	
<p>The Royal Free began as a pioneering organisation and we continue to play a leading role in the care of our patients. Our mission is to provide world class expertise and local care. Established in 1828 by William Marsden, a newly qualified surgeon was shocked that he could not find treatment for a penniless young woman. The Royal Free's founding principle was that they would take in anyone who needed treatment – the first hospital in London to do so and the only London hospital to stay open during the 19th-century cholera epidemics.</p> <p>In the 21st century, we continue to lead improvements in healthcare and are proud to have some of the best clinical outcomes in the country. Our mortality rates have been</p>	

consistently among the best in English trusts for many years.

Successful summer placements will be allocated at one of our four sites; Royal Free Hospital, Barnet Hospital, Chase Farm Hospital and Edgware Community Hospital.

Successful applicants will have the opportunity to shadow pharmacy professionals and take part in departmental projects and audits.
