

Professional Support Unit

Supporting the professional development of trainees and learners* working across London and South East

Are you a pre-registration pharmacist or pre-registration pharmacy technician?

Do you need: careers advice? help with clinical communications skills? one to one educational review?

If so, the Professional Support Unit may be able to help. See details overleaf.

What we offer

Resources

Careers Support including a range of 1:1 careers support sessions, from brief careers guidance to in-depth career counselling

The Coaching Service provides 1:1 coaching and is particularly designed to help trainees and learners in challenging situations that could prevent them from getting the most from their careers

e-Learning modules including:

- Clinical incidents
- Insight
- Medicines Management
- Prescribing
- Professional Boundaries
- Professionalism
- Record keeping
- Reflective Writing Skills
- Stress, Mental Health and Wellbeing in the Workplace
- Undermining and Conflict in the Workplace

Go to www.lpmde.ac.uk/ldper

Individual Support Team

- One-to-one confidential meeting with our clinical education staff
- Recommendations concerning the development of a personal development plan (PDP) and advice about how to put this into action
- Suggestions and sign-posting to other services such as London Leadership Coaching
- On advice from IST staff, eligible clients may be able to access our new specialist coaching service

Specialist Clinical Communication & Linguistic Services

- including:
- Communication learning needs reviews
 - Enhance your relationships with patients, families, carers, and colleagues
 - Assertiveness
 - Linguistic skills
 - Cultural awareness
